1. Identification

Product Identifier: Magic Wheel Cleaner
Other means of identification:
Product code: CU-9400
Recommended use: Chrome and steel wheel cleaner.
Recommended restrictions: None known.
Manufacturer information:
Company name: Chemical Universe, Inc.
Address: 1133 Saline St.
North Kansas City, MO 64116
Telephone: (816) 471-3602
Fax: (816) 474-3302
Emergency phone number:
PERS: (800) 633-8253
24 hour Emergency: (800) 633-8253

2. Hazard(s) Identification

Physical hazards: Not classified.
Health hazards:
- Skin irritation: Category 2
- Eye irritation: Category 2A
Environmental hazards: Not classified.
OSHA defined hazards: None.
Label elements:
Signal word: Warning
Hazard statement:
- Causes skin irritation.
- Causes serious eye irritation.
Precautionary statement:
Prevention: Wash hands and exposed skin thoroughly after handling. Wear protective gloves. Wear eye protection/face protection.
Response:
- IF ON SKIN: Wash with plenty of water. Specific treatment [see section 4 on this SDS]. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. If eye irritation persists: Get medical advice/attention.

Storage:
Disposal:
Hazard(s) not otherwise classified (HNOC): None.
Supplemental information: None.

3. Composition/information on ingredients

<table>

<td>1-2</td>
</tr>
</tbody>
</table>
4. First-aid measures

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact: Remove contaminated clothing immediately and wash skin with soap and warm water for at least 15 minutes. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

Eye contact: Rinse with water for at least 15 minutes. Remove contact lenses if present and easy to do so. Immediately call a physician or transport to hospital.

Ingestion: Rinse mouth. Get medical attention if symptoms occur. Do not induce vomiting.

Most important symptoms/effects, acute and delayed: Can cause serious eye irritation. Can cause burning sensation in affected areas. Can cause dermatitis, rash. Hydrogen peroxide can temporarily turn the skin white with persistent contact.

Indication of immediate medical attention and special treatment needed: Provide general support measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information: Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse. Use with caution.

5. Fire-fighting measures

Unsuitable extinguishing media: Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical: During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters: Self-contained breathing apparatus and full protecting clothing must be worn in case of fire.

Fire-fighting equipment/instructions: Move containers from fire area if you can do so without risk.

Specific methods: Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards: No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors or mists. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up: This product is miscible in water.

Large spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions
Avoid release to the environment. Avoid discharge into areas not consistent with package labeling.

7. Handling and storage

Precautions for safe handling
Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store in original tightly closed container. Store away from incompatible materials (see section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

</thead>
<tbody>
<tr>
<td>Hydrogen Peroxide</td>
<td>TWA</td>
<td>1 ppm</td>
</tr>
</tbody>
</table>

Biological limit values
No data available.

Appropriate engineering controls
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels to an acceptable level. It is recommended that users of this product perform a risk assessment to determine the appropriate personal protective equipment.

Individual protection measures, such as personal protective equipment

Eye/face protection
Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

Skin protection
Hand protection
Wear appropriate chemical resistant gloves.

Other
Wear appropriate chemical resistant clothing.

Respiratory protection
In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations
When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance
Physical State
Clear liquid.

Color
Colorless.

Odor
Citrus.

Odor threshold
Not available.

pH
4.5-6

Melting/freezing point
23°F (-5°C) estimated.
Initial boiling point and boiling range  >212°F (>100°C).
Flash point  >392°F (>200°C).
Evaporation rate  Not available.
Flammability  Not available.
Flammability Limits  
Upper  Not available.
Lower  Not available.
Vapor pressure  Not available.
Vapor density  Not available.
Specific gravity (water=1)  1.01
Solubility in water  Complete.
Partition coefficient (n-octanol/water)  Not available.
Auto-ignition temperature  Not available.
Decomposition temperature  Not available.
Viscosity  Not available.

10. Stability and reactivity

Reactivity  This product is stable and non-reactive under normal conditions of use.
Chemical stability  Material is stable under normal conditions. Store in a cool dark place.
Possibility of hazardous reactions  Hazardous polymerization does not occur.
Conditions to avoid  Material decomposes with the potential to produce a rupture of unvented closed containers. Avoid storing in excessive heat or sunlight.
Incompatible materials  Metals, organic materials, strong reducing agents, strong bases.
Hazardous decomposition products  No hazardous decomposition products occur. Oxygen can be liberated at temperatures above ambient.

11. Toxicological information

Information on likely routes of exposure

Ingestion  Do not ingest. May be harmful if swallowed.
Inhalation  Do not inhale. May irritate the upper respiratory tract.
Skin contact  Can cause skin irritation.
Eye contact  Can cause serious eye irritation.

Symptoms related to the physical, chemical and toxicological characteristics

Skin irritation, serious eye irritation. Can temporarily turn skin white with prolonged contact.

Acute toxicity  Expected to have low toxicity to humans.

*Estimates for product may be based on additional component data not shown

Skin corrosion/irritation  Can cause skin irritation.
Serious eye damage/irritation  Can cause serious eye irritation.
Respiratory sensitization  Not considered a respiratory sensitizer.
Skin sensitization  
Not considered a skin sensitizer.

Germ cell mutagenicity  
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity  
Not considered a carcinogen.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)  
Not Listed.

Reproductive toxicity  
No data available.

Specific target organ toxicity  
May irritate the upper respiratory tract with prolonged inhalation.

– single exposure  

Specific target organ toxicity  
No data available.

– repeated exposure  

Aspiration hazard  
No data available.

12. Ecological information

<td>LD₅₀= 254.4 mg/L estimated.</td>
</tr>
</tbody>
</table>

*Estimates for product may be based on additional component data not shown

Persistence and degradability  
Hydrogen peroxide in the aquatic environment is subject to various reduction or oxidation processes and decomposes into water and oxygen. Hydrogen peroxide half-life in freshwater ranges from 8 hours to 20 days, in air from 10 to 20 hours, and in soils from minutes to hours depending upon microbiological activity and metal contamination. Alcohol ethoxylate: considered readily biodegradable.

Bioaccumulative potential  
Expected to be low, will likely degrade before accumulation can occur.

Mobility in soil  
Will likely be mobile in the environment but will degrade over time.

Other adverse effects  
None.

13. Disposal considerations

Disposal instructions  
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations  
Dispose in accordance with all applicable regulations.

Hazardous waste code  
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues/unused product  
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner. (see: Disposal instructions).

Contaminated packaging  
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may contain product residue, follow label warnings even after container is emptied.

14. Transport information

DOT  
Not regulated dangerous goods.
15. Regulatory information

US federal regulations
- SARA 302 Extremely hazardous substance
  Not listed.
- SARA 304 Emergency release notification
  Not listed.

SARA 311/312 Hazard Categories
- Immediate Hazard - Yes
- Delayed Hazard – No
- Fire Hazard – No
- Pressure Hazard – No
- Reactivity Hazard – No

SARA 313 (TRI reporting)
- Not listed.
